As there is a deal of excitement caused by the Swedish Nightingale, so there is about the *life-like* Pictures taken by WILLIAMS. Have you visited his rooms? if not, do not fail to soon, because he has made up his mind, to stay in Newport but a few weeks longer. What a token of remembrance is a perfect likeness! When friends are removed from us, with what pleasure can we bring their features to our eyes by having that which no family should be without; it brings to our mind those joyous hours which we long to renew. Then, reader, make it your duty to come to this place of remembrance, and you will never be sorry. The [illegible] are all the latest improvements [illegible] the present [illegible] he is enabled to take a correct likeness in the short space of 3 seconds.

Professor Alexander C. Barry's Tricopherous, or Medicated Compound, for restoring, preserving, and beautifying hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, &c. In order to convince the public of the efficacy of any curative preparation, in this thinking and reflective age, it is necessary to explain the philosophy of its operation. The process by which Professor Barry's Tricopherous produces such extraordinary results, cannot be understood, without a brief notice of the structure and uses of the delicate substances to which it is applied, and in the condition of which it accomplishes the most salutary changes. The connection between the hair and the skin is so close, that the one may almost be deemed a continuation of the other; and hence whatever renovates, restores, and nourishes the hair, must of necessity have a healthful influence upon the sensitive membrane in which its roots are fixed. The skin, that wonderful envelope, in which the sense of touch resides, consists of three layers; the epidermis, or cuticle, a semi-opaque, or almost insensible film; the rete mucosum, which is a spongy membrane, reticulated with nerves and blood vessels, and forms a sort of shield to the exquisitely sensitive true skin; and the true skin itself, which constitutes the third layer of the triple envelope. In this tough, flexible, and elastic integument, are located the nerves, blood-vessels, &c., which supply sustenance to the hair, and in the derangement of which diseases of the skin originate. The vessels of the true skin supply the sacs containing the roots of the hair with the moisture which sustains the fibres, and the same causes which affect the health of the hair, also affect the health of the skin. It acts through the skin upon the hair, stimulating the inert vessels, opening the pores, imparting activity to the circulation, awakening from their lethargy all the vegetative functions which give life, vigor, and beauty to the fibres, extirpating every particle of scurf and dandruff, and soon clothing even the bald or half denuded head with a thick, glossy, silky, and elastic covering. But this is only one of the uses of Professor Barry's Tricopherous. The same properties which restore vital and vegetative power to the skin of the head, are equally beneficial in all cutaneous diseases or superficial injuries. For cuts, burns, bites of insects, sprains, erysipelas, blotches, pimples, scabies, ringworm, rashes, scrofula, prickly heat, chilblains, chapped hands, rheumatism, burns, scalds, bruises, redness of the skin, and in short, all the troublesome and painful external diseases and injuries which are so common in families, and which nothing but external remedies can remove, the Tricopherous will be found a speedy, safe and unfailing cure. By virtue of its double claim as a renovator and beautifier of nature's choicest ornament, and a potent and invaluable remedial agent, it is entitled to a place on every toilet and in every medicine chest. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, N. Y., and by the principal merchants and druggists throughout the United States and R. J. TAYLOR, Newport, and J. BALCH & SON Providence. may1.

PHALON'S CHEMICAL HAIR INVIGORATOR.

THE enormous progressive increase in the sale of this unrivalled article for renewing, beautifying and perpetuating the growth of the hair, is a proof the common sense and experience of a sagacious public will ensure the triumph of a genuine preparation, which sustains by its results the inventor's guarantee over all spurious nostrums, however they may be bolstered by fulsome puffs. Where the hair has fallen off, it will, in all cases where the vitality of the roots has not been destroyed, produce a full growth of fibres, as elastic and glossy as those with which the denuded scalp was originally clothed. Where the hair is loosening, and thinning, it will refix the yielding roots and restore the growth on the spots which have become bald. If the hair is harsh and dry, the Chemical Invigorator will render it soft, flexible, and lustrous; for it penetrates to the sacks in which the roots of the hair terminate, and is thence conveyed through each tubular fibre, lubricating the dry substance, and imparting vigor, beauty, and vegetative power to the whole mass of filaments. In cases where the head has become bald, or partially so, by disease, whether local or general, the Chemical Hair Invigorator will infallibly reproduce the lost covering of the scalp in its original profusion and beauty. It has the property of darkening the hair, as well as promoting its growth, elasticity and lustre. The lady or gentleman who uses it regularly, according to the directions, need not fear that age will bring, so far as they are concerned, its usual concomitants, grey hairs—not, at least, until years after the period when they ordinary make their appearance. In short—by young and old, by both sexes and all classes—Phalon's Chemical Hair Invigorator will be found not only the very best, but the only preparation by which the hair can be preserved in all its natural luxuriance, and endowed with all the additional beauty and perfection which it is the province of art to bestow.

HAIR DYING.

Phalon's Magic Hair Dye, to color the hair or whiskers the moment it is applied without injury to the hair or skin. It can be washed immediately without disturbing the color, and has no bad odor. It is applied, or sold, at GORTON ANDERSON'S Barbering and Hair Cutting Establishment, 193 Thames Street. june1. 1y

LIFE ASSURANCE.
ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.
Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurances only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with entire safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum, and no more, and not to require a larger premium than is strictly requisite for the purpose, with the promise of a return, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those evils and contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, ☞ upon the party's arriving at the age of 10, 45, 50, 55, or 60, [illegible] in either case free from the claims of creditors. The usual extra [illegible] will be assessed by this company at reasonable rates.

The Daily News.

NEWPORT,

BY CRANSTON & NORMAN,
127 THAMES STREET.

MONDAY MORNING, JUNE 23, 1851.

THE NEWPORT SEASON OPENED.—*The Ocean House at Newport.*—It seems but a few days since we took leave of this pleasant retreat, at the end of a season of uninterrupted gaiety and enjoyment, which terminated with a brilliant festival. But a long winter has intervened and a dilatory spring has just given way to the too long delayed advent of summer, and here is our courteous and accommodating landlord, Mr. Weaver, once more standing in the inside open entrance of the Ocean House, and telling us that all things are ready for our return. The summons is timely and attractive, and we doubt not will be heard everywhere with pleasure, and responded to with alacrity.

Newport is pre-eminent among the watering places in our country, in that it so completely unites the essentials of roominess, and consequent quietness, healthiness of atmosphere, temperature of climate, facilities for sea-bathing, for sea sailing, and sea-fishing, and a sufficiency of good hotel accommodation.—What other place in the land combines so many undeniable advantages? We know of none.

Several of our fellow citizens having casually visited Newport, as a summer watering place, have been so pleased with it as to make it their residence, some for the warm months only, and some for the whole year round. Out of the Newport population thus formed by New York emigration, the Rhode Islanders this year have made a Lieut. Governor; and among the residents there for the larger portion of the year, may be named our U. S. District Attorney, Prescott Hall, Esq., who has a beautiful establishment of his own on the banks of the Narraganset. These are good proofs of the eligibility of Newport on all the grounds we have named and it is therefore no wonder that it is, year by year, becoming a place of fashionable and general resort.

Besides all the advantages we have alluded to, as appertaining to Newport, must, in justice, be mentioned the splendid line of steamers, which ply daily between this city and that. The "Bay State" and "Empire State," on their way to and from Fall River, leave and take up passengers, at a regular hour, each day. A trip across the Sound, at this season of the year, is [illegible] well.—*Spirit of the Times.*

☞ The Umbrella, Parasol, and Parasolette Manufactory of James Woods, at 292 Pearl street, New York, is undoubtedly one of the best establishments of its kind in the country, and we most cordially recommend our merchants to give Mr. Woods, a call when visiting New York. We learn from a private source a fact which speaks well for him and induces us to believe that he comes as near being an honest man as any merchant can well be and live by trade. A friend of ours who has bought goods of him for years says that "you will always recieve as good an article and at as low a price when ordering the goods, as if you were present in person to select them." This is certainly a mark of honesty and good faith, and we commend Mr. Wood's establishment to the attention of our merchants.

☞ We are indebted to Messrs. Newton Brothers for a copy of the San Francisco Herald containing very full particulars of the late terrible fire in that city.

CENTRAL WHARF.—Our citizens will be glad to learn that the Long Wharf, the finest in the city, is again in a state of repair. It is but one short week since it was entirely cut off from the city by the fire, and such is the diligence and activity of the contractor and the enterprise of the Company, that by Saturday night it was again put in a thorough state of repair, so as to connect [illegible] the main avenues of the city by [illegible] and Sacramento sts.

The work was commenced at noon on Tuesday, by Wm. E. Dennis, Esq., and without even intruding on the Sabbath it is this morning at daylight open for business. The Wharf was consumed for a distance of 888 feet, and the dispatch used may be learned from the fact that the immense amount of work done has been accomplished in four and a half working days. We understand the Senator and New-World will immediately resume their stations at Central Wharf [illegible]. In three days we learn that the Wharf will be pushed as far as Leidesdorff, and then the direct connection with Montgomery st. by Commercial, will be complete.—*San Francisco Herald.*

3 days later from Europe.

The steamship Niagara, Capt. Stone, arrived at New York at 7 o'clock Friday morning, with intelligence to the 7th instant, the day of her departure from Liverpool.

The Niagara, on the 17th inst., lat. 43 36, lon. 59 57, spoke U. S. steamer Washington. 18th, 4.40 A. M., passed R. M. steamer Asia, Judkins.

The report of the appointment of M. Gonzales Bravo, as Minister from Spain to Washington has been contradicted.

FRANCE.

The speech of President Bonaparte at Dijon, made a prodigious noise, when received at Paris, which correctly reported, turned out to be a speech of most violent character against the Chambers.

It is stated that his friends have determined upon printing the speech,—thinking that the official modification has injured him in the public opinion.

The Ministers with M. Dupin returned to Paris, and Louis Napoleon followed the next day, with the full consciousness that he had made a political blunder. On Tuesday the bureaux of the Assembly met to choose their Presidents, etc., and the Bonapartists were all excluded to a man.

At the re-opening of the museum of the Louvre, the President made a speech but did not touch upon politics. He addressed some complimentary remarks to Leon Faucher, which served to show that the report of the probable resignation of ministers is untrue. The Globe Paris correspondent states that, in consequence of the news from Portugal, the French ambassador at Lisbon had to give cordial support to the English ambassador for the protection of the person of the Queen.

Great excitement prevailed in the Assembly. Upon the first motion, which was to pension certain soldiers of the line involving a principle affecting the republic, the left opposed the motion, and it was rejected by 306 to 295. This is the first blow of the Assembly. But during the debate a much more important incident occurred.

General Changarnier took an opportunity of speaking on the question, and in advancing to the tribune shook hands ostentatiously with M. Leon Faucher and M. Buffet, the two ministers. The General then in a few words, spoken amidst profound attention, said "No man could induce the army to act against the laws of the country, and change the government

What pretext was there for enthusiasm? (The left loudly cheered.)

The army knows its duties and dignity, and would never lend itself to the act of inflicting on France a government by force. This was not the era of the Cæsars, when one Emperor was deposed to-day and another raised to the purple of drunken Proetorian soldiers!

The discipline of the army was too firm to allow it ever to march against the Assembly. Not a battalion or a conspiracy could be found to obey a chief, if he gave such an order; therefore, representatives, you may deliberate in peace." This intrepid speech was loudly cheered, and the ministers having declared officially that the President's speech in the Moniteur was the only version they recognized, the interpolations upon it were withdrawn, but the subject must be resumed in some other.

The blow has now been struck by the President against the Assembly, and a courageous General vouches for the loyalty of the army to that body, and a second General, Cavaignac, is ready to draw the sword to support General Changarnier if necessary.

The Socialist party are in raptures with Gen. Changarnier's speech, whilst the organs of the Elysee strive to undervalue its importance. Whilst Changarnier and Cavaignac remain, Louis Napoleon can never succeed in overthrowing the Republic to make himself Emperor

PORTUGAL.

The Duke of Saldanha, contrary to expectation, is pursuing a wise and prudent course in Portugal, and he is endeavoring to conciliate moderate men. The Septembrists, however, count upon his versatility of character, and hope to overthrow him ere long.

A decree has been issued for the dissolution of the Cortes, and for convening a new Parliament on the 15th of September next. There is an unaccredited report, coming through Paris from Madrid, that a movement against Saldanha has suddenly burst out in Portugal, and that several regiments and the whole province of Estremadura has declared for the Queen against the insurrectionists.

PRUSSIA.

We have news from Berlin of the 31st of May. The inauguration festival of the statue of Frederick the Great took place quietly on that day. M. Manteuffel made use of his usual old style speeches, talked of the fidelity of the army and ancient institutions, and was followed by the King, who also delivered an address.

Our advices by telegraph from are of the 4th inst. They inform us that the Danish Minister for Foreign Affairs has proceeded to Warsaw, and that Baron Thumen, the Federal Commissioner in Holstein, would on that day follow him to the same place.

AUSTRIA.

Accounts from Vienna of the 1st inst., state that rumors of a loan, and also of an emission of the reserved shares of Bank of Vienna, were again current but failed to produce large sales. Business generally was exceedingly stagnant, and not likely to recover during the prevailing uncertainty regarding the financial measures adopted by the Government. The premium on gold and silver was, however, a fraction lower. There had been extensive transactions in wheat, and with improved prices.

Advices from Breslau of the 3d inst., state that the wool fair was to commence on the 4th. Usually a very large business takes place previously; but on the present occasion, notwithstanding the great influx of buyers, nothing whatever had been done. Holders steadily refused to submit to the reduction, which was positively demanded.—The wools are reported to be in good condition, although from the weather during the season, the contrary was anticipated.

Telegraphic advices from Vienna of the 4th inst., contradict the late reports of the dismissal of M. Bach, the Secretary for Home Affairs. Count Thun, the Austrian agent at Frankfort, has been instructed to submit the Austrian Annexation question to the Diet.

ITALY.

A letter from Rome of the 19th ult., in the Vero Amico of Bologna, states that his Holiness has named an extraordinary congregation, composed of six cardinals, for the purpose of inquiring into the moral state of convents, and proposing remedies for the abuses that have crept into those establishments.

The Giornale di Roma of the 17th publishes a sentence of the supreme tribunal of the sacred consulta, condemning Pietro Ercoli, aged 31, to the galleys for twenty years, for having, on the night of May, attempted to prevent one Luigi Giannini from lighting a cigar he wanted to smoke.

A riot had taken place at Florence on the 29th ult. The people were fired upon; two were killed, and seven or eight wounded.

ROME, May 31.—Callondrelli, the colonel Mazzini's resignation, has been tried and condemned to death. Cardinal Vizardelli has died.

CAPE OF GOOD HOPE.

PORTSMOUTH, Friday Morning.—The Prince of Wales, Indiaman, passed up the channel this morning and landed her mails at this port. Cape of Good Hope news to the 8th of April state that the Governor of St. Helena had gone in H. M. S. Sampsok, with troops to the Cape. Sir H. Smith had issued an order for a further levy of 700 burghers, to be raised at a cost of $8000. H. M. S. Dee and the Hermes were still plying, taking troops and levies to the mouth of the Buffalo.

A FIERY WINDMILL.—One of the most singular and striking things in connection with the fire occurred on the corner of Sansome and Pine sts. where had recently been erected a windmill. The flames had enveloped it, and all had fled from the house, when the brake by which the machinery is stopped was burned, and the wheel at once turned to the wind, and commenced revolving with great rapidity. Round and round it flew, scattering sparks and brands from its burning circumference, like scintillations from a blacksmith's forge. The sheet of flame that broke over it seemed only to increase in speed, and even when the whole wheel was wrapped in flames it continued to revolve. It was a strange sight to see that fiery circle moving round amid the flames and smoke of the building. Not until all save the rim was burned did it cease to revolve, and then it was slowly and by degrees that it yielded, as if exhausted by the furious attacks of the fire. One moment it stood, then, tottering, fell into the ruins beneath.—*San Francisco Herald.*

Hon. Henry Clay was to argue a case before the Court of appeals at Kentucky last week. His health had continued to improve since his return from Cuba.

DECEASED.—The widow of the late Chancellor Kent died on Thursday last, at the residence of her son-in-law, Mr. Isaac S. Hone, in Orange, New Jersey She was eighty-three years of age.

☞ A lady, with a sigh, exclaimed—"Well I have lost my lawsuit!" "Oh, mamma, how glad I am," said her child, "that you have lost it; for it tormented you awfully!"

☞ Thomas L. Nichols, a practising physician on the hydropathic system, who married Mrs. Gove, is to have charge of the water cure establishment to be opened at Mr. Barnum's late residence, Iranistan, near Bridgeport.

MARRIED.

In Pawtucket, 17th inst., Mr Wm Hodges, of Tiverton, and Miss Harriet L. Horton, of North Providence.

DIED.

In Pawtucket, 14th inst., Mrs. Sarah Perry, widow of the late John Perry, of Newport, aged [illegible] years.

A. CARD.

DOCT. F. GOURARD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCULIST,
DENTIST,
AND PROFESSOR OF CHEMISTRY;

has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years passed; that he has begun anew his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronics, inflammatories or accidentals, which afflict the Eyes and the Sight, either in young subjects or older ones; the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABIES SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only [illegible] inspection of the instruments used in performing the operation will be all sufficient to induce a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabismus in the city of New York, upon 24 Strabic subjects, with an indisputable success, after having operated upwards of 300 in France.

BLISS' JENNY LIND HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observation) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention.

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are mounted. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the ash-door, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to bake twelve pies. Also, a bath boiler, which can be heated by a side or back flue or a water back, and a new and improved hot-air fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we produce a medicine that would INSTANTLY STOP THE MOST SEVERE PANGS OF PAIN. And speedily remove its cause.

We proposed to Hospitals, and all other institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce RADWAY'S READY RELIEF, for their investigations, and to illustrate its merits and miraculous power over pain upon the patients. We claimed that it would allay in a few minutes the most severe

RHEUMATIC PAINS,
DIARRHEA, NEURALGIA, &c.
TIC DOLOREAUX,
CHILL FEVER.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all painful and diarrhea discharges, and impart a genial warmth to every organ and secretion of the body, that it would positively relieve the most severe and disagreeable pains of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgic pains, and permanently cure this excruciating affection. That it would stop the most tormenting toothache in a few seconds.

That it would remove all rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possesses a miraculous soothing and relieving influence over all pains originating from Rheumatic, Neuralgic Nervous and Billious complaints, and that the patient suffering the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was startled at the publication of our discovery. The wise savans of Medical Science shook their heads in doubt. The sick and afflicted hoped yet, feared that like other remedies it would cure quicker on paper than by practical experiments—thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town, and city, within 600 miles of New York we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were mitigated; weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgic, Sick and Nervous Head Ache Chill Fever, Diarrhea, Cramps, Spasms, Cholera Morbus, and in fact all painful and distressing Acute Complaints, were suddenly relieved from their tortures and restored to health. Its fame spread from city to city, the people sounded its wonderful virtues far and wide, and ere the earth had run its yearly course.

FIVE MILLION BOTTLES WERE SOLD in every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York, and Ohio, in Michigan, Wisconsin, Illinois, Indiana, Missouri, the people have tested its merits and pronounced it a safeguard against disease, and a quick antidote for pains. In New Jersey, Pennsylvania, Delaware, the Carolinas, Georgia, Alabama, and Louisiana—in every town in each State it has made friends and proved its efficacy

TO THOSE WHO KNOW NOTHING OF IT.

If you are unacquainted with the merits of

RADWAY'S READY RELIEF,

and if you reside in any of the States mentioned above, we refer you to the druggists, to physicians, and the people; Take a bottle of it to any skilful physician, let him test it, we will risk its reputation on his opinion.

One drop has frequently cured the most tantalizing Toothache.

Forty drops, taken three times per day, will cure Sour Stomach.

Sixty drops taken four times per day, will cure Weakness and Debility.

Ten drops taken every ten minutes, will cure Diarrhœa.

Thirty drops, has, in fifteen minutes, stopped the Sick Headache.

Sixty drops, taken every ten minutes, has cured Cramps, Spasms, &c.

Thirty drops has, in fifteen minutes, cured Tic Doloreux.

Sixty drops has, in twenty minutes, stopped the pains of Neuralgia.

Thirty drops, every ten minutes, has cured Chill Fever.

Thirty drops has, in five minutes cured Wind on the Stomach.

[illegible] has, in fifteen minutes, cured Cholera Morbus.

One application externally has stopped the most painful Rheumatic affliction, and cured Sprains, Strains and Spasms.

Three applications has cured the Salt Rheum.

Three applications has cured the Rash and Tetter

Three applications has cured Pimples and Blotches.

Six applications has cured the Erysipelas.

Three applications has cured the most painful swelling.

Six applications, in twenty-four hours, cured a Curved Spine.

One application, in fifteen minutes, cured the Lumbago.

DISTRESSING PAINS OF ALL KINDS ARE INSTANTLY ARRESTED BY RADWAY'S READY RELIEF.

DIARRHŒA.

On the first symptoms of Diarrhœa or Dysentery, take from 1-2 a teaspoonful of RELIEF, in water, and bathe the bowels externally, and your sickness and pain will be but the affair of a moment.—Let persons who are ailing, read our pamphlets.—These cases that the Ready Relief will reach, it will act upon quick, promptly and effectually. See that each bottle bears the signature of

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as parisian marble—
Soft and sweet as the fragrant rose—
Teeth as good and white as alabaster.
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck.
No [illegible] repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant [illegible],
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wonderous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter.
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored.
To the teeth it gives whiteness and prevents decay,
It makes the skin soft sweet and smooth.
Transforms the most repulsive and disfigured visage,
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant.
Cleanses the scalp from dandruff—gives action to the bulbs—
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair make it smooth and glossy—
Strong as [illegible], &c.
Radway's Circassian Balm is the [illegible]
[illegible] Price 25 cents per bottle.

THE GREAT

RENOVATOR OF THE BLOOD

AND

DISEASE EXTERMINATOR.

EXPERIENCE is the Basis of all Real Knowledge.—To SEE and to FEEL is to KNOW, and that which is seen and known must not be contradicted. When Galileo announced the discovery of new planets, the Aristotelians said, "This is impossible." Galileo replied, "Look through my telescope, and behold." The philosophers rejoined, "We will not look lest we should see them." There are a few people *now-a-days* so silly that they will not look at facts lest some prejudice should be disturbed. These persons are, however, not numerous, and their stupidity injures nobody but themselves. The character of Dr. S. P. Townsend's Compound Extract of Sarsaparilla rests upon universal experience alone. Without this solid foundation, it never could have attained the wide-spread popularity which it at present enjoys. Its value and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that science sanctions and verifies the verdict.

Dr. JAMES R. CHILTON,

a PHYSICIAN and CHEMIST of the highest rank, superintends the compounding of this Sarsaparilla.

Dr. S. P. Townsend's Sarsaparilla has proved to the satisfaction of thousands, to be the GREAT PURIFIER of the BLOOD and FEMALE STRENGTHENER. It will not reduce the already debilitated, its TONIC ACTION being such as to STRENGTHEN, as well as to regulate the bowels.

HOME TESTIMONY.

SALT RHEUM,
OF MANY YEARS STANDING.

The following evidence of the efficacy of Dr. S. P. TOWNSEND'S EXTRACT OF SARSAPARILLA in Cutaneous Diseases, is well worthy the notice of those afflicted with such disagreeable eruptions:

New York, August 6, 1850.

Dr. S. P. Townsend—Dear Sir: I am most happy to acknowledge that, after suffering for nearly nine years with the Salt Rheum in a very aggravated form, and being abandoned as incurable by several of our first physicians, I was finally persuaded to try your far-famed Sarsaparilla. The effects were soon perceptible, and when I had used ten bottles, to my great surprise I found myself not only cured of that most disagreeable and irritating disease, but my general health was so much improved that it astonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful effects curing in numerous diseases, not altogether caused by a bad state of the blood.

Yours most respectfully,

Mrs. JANE SHAW, 105 Third Avenue.

P. S. You have my consent to publish the above; and it will give me great pleasure to state my case personally to any lady that is similarly afflicted.

COUGHS AND COLDS.

Dr. S. P. Townsend's Sarsaparilla contains just the qualities that are requisite in these cases. It acts as a mild alterative and expectorant, thus changing the action of the system, and enabling it to throw off the complaint. The number of instances in which Coughs and Colds have been cured by this preparation is immense.

Brooklyn, June 12, 1850.

Dr. S. P. Townsend—Dear Sir: I was taken sick about a year ago, which was thought by many would result in Consumption. I had used "old Dr." Jacob Townsend's (as he is called) Sarsaparilla, which done me no good. I then tried yours, and am most happy to say it has entirely cured me. I am a clerk of Col. JAMES T. JACK, Esq., Counsellor at Law, Montague Hall, in this city.

Yours, &c.,

WILLIAM NEWTON SHEFFIELD.

DYSPEPSIA AND NERVOUS DEBILITY.

Messrs. Hartman & Bach.

Gents:—Gratitude will no longer prevent my acknowledging to you how much I have been benefitted by the use of Dr. S. P. Townsend's Sarsaparilla. For nearly a year I have been afflicted with Dyspepsia and Nervous Debility; I had become almost discouraged, as my physician's prescriptions were every day the same: "You require no medicine, but exercise in the open air, my good lady, or you will never get well." Feeling as I then did, this was not practicable. So I began, through the recommendation of Mrs. Carman in Johnson st., to take Dr. S. P. Townsend's Sarsaparilla. She said it would strengthen and give appetite, if nothing more. By her advice, sent $2, and obtained three bottles. Before I had taken all of the first bottle, began to feel stronger, and spirits much improved—I began to go out more or less every day. I have not taken all of the third bottle, as I find a tea-spoonful now to have more effect than two table-spoonfuls did at first. This, I have been told, is one of the great secrets of the success of your medicine; that instead of increasing, the dose is diminished. I am now enjoying better health than I have before for a year. As I am well known to many in your city as well as in Brooklyn, it might be to your interest to publish this, which you have my consent to do.

Yours, &c. MRS. CAROLINE GRAHAM,

DR. CHRISTIE'S
GALVANIC BELT, BRACELET
NECKLACE
AND
MAGNETIC FLUID

For the Removal and Permanent Cure of

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT
and
MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

☞ GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause —namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, *Drugs and Medicines increase the disease,* for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application,* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting *from* the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the Country could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:—

Sidney, New Jersey, July 12, 1848.

Dr. A. H. Christie—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty* years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilful and excellent men, but here their prescriptions failed. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this relief was only temporary. Farther: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated,* and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopoeia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection is *entirely cured.* Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

ROBERT W. LANDIS.

DR. CHRISTIE'S
GALVANIC NECKLACE

DR. HOOFLAND'S

CELEBRATED GERMAN BITTERS,

Prepared by

C. M. JACKSON,

AT THE GERMAN MEDICINE STORE,

120 *Arch Street, Philadelphia.*

Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"*The Tenth Legion,*" published at Woodstock Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters,* invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS

From "The Weldon Herald," published at Weldon, N. C., January 25, 1850, which said—

"*Patent Medicines.*"

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the effort of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Noah said, in his "Weekly Messenger," January 6, 1850,

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug,* and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to *female* or *infant* with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article, at the risk of the lives of those who are innocently deceived.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

DESTINY CAREFULLY CALCULATED AND SET ON PAPER.

ASTROLOGY.—THE CELEBRATED DR. C. W. ROBACK, Professor of Astrology, Astronomy, Phrenology, and Geomancy, combined with CONJURATION, from Sweden, office No. 71 LOCUST Street, Philadelphia, offers his services to the citizens of Newport. He has been consulted by all the crowned heads of Europe, and enjoys a higher reputation as an Astrologer than any one living. Nativities calculated according to Geomancy—Ladies $3, Gentlemen $5. Persons at a distance can have their nativities drawn by sending the date of the day of their birth. All letters containing the above fee will receive immediate attention, and Nativities sent to any part of the world written on durable paper; and he is prepared to make use of his power by conjuration on any of the following topics: Courtship, advice given for the successful accomplishment of a wealthy marriage; he has the power to redeem such as are given to the free use of the bottle; and for all cases of hazard, and for the recovery of stolen or lost property, and the purchasing of lottery tickets. Thousands of the above named cases have been done in this city and its vicinity, and in the United States to the full satisfaction of all. 10,000 Nativities or Horoscopes have been cast during the last four years while here. Letters will answer every purpose, and will do as well as to call in person, and the mail is now so safe that persons need not fear to trust money through the Post Office. Dr. Roback receives from 600 to 1000 letters monthly, and has never missed one.

All letters will be religiously attended to, if prepaid. For more particulars call at the office of the News, and get an Astrological Almanac gratis.

DYSPEPSIA,

DR. HUTCHINGS'

VEGETABLE DYSPEPSIA BITTERS

THE MOST POPULAR FAMILY MEDICINE OF THE AGE!

Used by Physicians of High standing.

These BITTERS remove all morbid secretions, purify the blood, give great tone and vigor to the digestive organs, fortify the system against future disease, can be taken with safety, at no time debilitating the patient—being grateful to the most delicate stomach and remarkable for their cheering invigorating, strengthening, and restorative properties, and an invaluable and sure remedy for the

DYSPEPSIA IN ITS WORST FORM.

Also, liver complaints, jaundice, heartburn, costiveness, faintness, disorders of the skin, liver and kidneys, loss of appetite, low spirits, nervous headache, giddiness, palpitation of the heart, sinking and fullness of weight at the stomach, and all other diseases caused by an impure state of the blood, liver, &c., which tend to debilitate and weaken the system.

Females who suffer from a morbid and nervous condition, will find this medicine of

INESTIMABLE VALUE.

In all cases of General Debility this Medicine

ACTS LIKE A CHARM.

The following certificate is from an old gentleman who readily acknowledges the Bitters the only thing that keeps him alive.

Dear Sir:—I hereby offer you a willing testimony to your valuable Bitters; I hardly know where to find words to thank you for the good it has done me. I would not be without it on any account, and honestly believe that it is the only thing that keeps me alive.

I have recommended it to many of my friends; they all speak of it in the highest terms, which it richly deserves.

You are at liberty to refer any one to me as regards your valuable compound.

WALTER SIMONSON,

63 Fourth street, Williamsburg.

Read the following from an eminent physician:

The undersigned being acquainted with and used the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in my practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

T. HARDENBERGH, M. D.,

No. 1 Beach street, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

Principal office, 122 Fulton-st., N. Y., up stairs.

Price, 50 cents per bottle, or 6 bottles for $2.50.

HUTCHINGS' VEGETABLE DYSPEPSIA BITTERS.—THE PROOF! THE PROOF!!—An ounce of fact is worth a pound of theory; and the swarm of conclusive facts that cluster around this incomparable preparation, establishing its value as a tonic and restorative, are such as would prevent incredulity itself from questioning its effects. In all cases of disease of the stomach, whether acute or chronic, it may be recommended for its soothing, cordial and renovating influence. Dyspepsia, heartburn, loss of appetite, uneasiness in the epigastric region, fluttering of the heart, dimness of sight, swimming in the head, hypochondria, flatulency, nausea, nervous tremors, relaxation and debility, &c., are relieved by the Bitters in a very short space of time; and a perseverance in their use never fails to work a thorough cure.
